I have seen them doing wrong  
I have seen the damage done  
Manipulation is their way  
You think it's right, all they say

"You must break free, they have deceived you.  
Please break free, you must break free,  
You have to break free and leave them,  
That's the only way you can do,  
That's the only right thing you can do now!"

"Let me be free, let me be free,  
Let me go away forever!  
Let me be free, let me be free,  
I miss freedom more than ever"

False hope, is what they give  
That's the way you should live  
Collateral damage, in your mind  
Searching for the answers you need to find

"You must break free, they have deceived you.  
Please break free, you must break free,  
You have to break free and leave them,  
That's the only way you can do,  
That's the only right thing you can do now!"

"Let me be free, let me be free,  
Let me go away forever!  
Let me be free, let me be free,  
I miss freedom more than ever"
