### "Insignificant"

It's all gone away,  
But not for good, I'm assured  
But what's the most a promise can mean?  
It's nothing more, nothing more than a phrase  
Just a stupid little phrase  
My excuse to keep living a dream

An insignificant dream, for insignificant me

And what if I got bent up today?  
Now there's no one left there to make sure I'm okay  
There's no more comfort, nothing more to say  
We can finally call a truce, 'cause I'm no longer in the  
way

I wish I could say what was bothering me  
I can't really tell what's bothering me  
I've got no more security  
She came and went too quickly
