Dont reject me
Dont send me away
Dont ever let me down
Be my torch
And burn for me
I need a little of your starlight

Theres a black hole in my soul
Eating all the love
A demon in my heart
Wholl never get enough

So unlock your soul
And turn on your neon light
Keep your heart
Open all night
Open all night

Im with the lost
Leading the lonely
Whose for another tortured soul
Be the saint
To whom I pray
To make me whole
Be the shoulder where I cry
A bed for me to die
And angel come to save me
The only one who ever forgave me

So unlock your soul
And turn on your neon light
Keep your heart
Open all night
Open all night

Turn on the neon
That you call your heart
Short stay
For rent
Until I depart
Always a vacancy

Safe and warm
Always a port in a storm

Theres a black hole in my soul
Eating all the love
A demon in my heart
Wholl never get enough

So unlock your soul
And turn on your neon light
Keep your heart
Open all night
Open all night

cause Im an
Erotic neurotic
I need a little antibiotic
Cause Ive got
A sickness in my soul

Give me a moment
Of dedication
A few little prayers
And some medication
Stay open all night

Soul for sale
Heart for rent
Open all night
Open all night
Keep your heart
Open all night
