Every morning
Now I pray
The phantom pains
Not to come again
A million tears
To slip away
And take the vessel
Of my blame

We have got to brave the storm
The people who do us harm
I will never walk alone
The pavement of this bitter town

Us forever breaking hearts
Breaking rules and making fools
Forever having have to hold
The key that takes me to your soul

Always feel the loner
On the outside looking in
Always fall the victim
Of the seven deadly sins

Saviour, Sinner, Dreamer, Fool

They howl from the balconies
I just have to laugh and say
Well this is my kind of ecstasy

Us forever breaking hearts
Breaking rules and making fools
Forever having have to hold
The key that takes me to your soul

Smiles may come and go
But how I love you when you cry
Baby you're the arrow
Through the apple of my eye

Us forever breaking hearts
Breaking rules and making fools

Forever having have to hold
The key that takes me to your soul

To your soul
Always and always
