Indigo blue
Under a wicked red moon
Body prime
Deep in crime
Here's thinking of you
Soft the sound
Of lips against the ground
Death wore chinchilla
Catch me a killer
Paint me the town

Still time
All's fine
Shivering dreams
Blood line
Moonshine
Brittle beams

Love paint me blue
Indigo colouring you
Fevered brow
Time is now
The things love makes us do
Fire brights the room
Where candles neglect the gloom
Aura lights
Bathe the night
Here's thinking of you
Still time
All's fine
Shivering dreams
Blood line
Moonshine
Brittle beams

Indigo blue
Under a wicked red moon
Body prime
Deep in crime
Here's thinking of you
Soft the sound

Of lips against the ground
Death wore chinchilla
Catch me a killer
Paint me the town

Still time
All's fine
Shivering dreams
Blood line
Moonshine
Brittle beams
Still time
All's fine
Shivering dreams
Blood line
Moonshine
Brittle beams
