=====  
Marc Almond - Oily Black Limousine

=====

(Almond)

Me and my lover out taking the night  
In an oily black limousine  
The rain melting our widows  
Weave deep and seductive scenes  
Late night jazz... Slow sliding away  
To timeless time  
Hey! Time we found things to say  
Like is love here to stay?  
No it goes sliding away.

Violin solo

Me and my lover out owning the night  
Empty wet streets a-sh-sh-shimmering  
Neon night lights a-g-g-glimmering  
Slow sliding away  
Now we talk about stupid things  
Like is love here to stay?  
No its sliding away

Violins again

Gliding, sliding  
In and out of the shadows  
Chasing my heart down the yawning boulevards  
To nowhere  
To nowhere

I've got you  
Under my skin  
I've got you  
Deep in the heart of me  
So deep in my heart  
It's really a part of me  
I've got you  
Under my skin
