=====  
Marc Almond - Waifs and Strays  
=====

(Almond)  
And so they say they're leaving  
While you sleep away the day  
You go out every evening  
Collecting waifs and strays  
They follow their illusions  
They don't know what to do  
They need a clear direction  
That's why they turn to you  
You're pleading  
Please don't leave me  
Don't go from me so soon  
I need to be found  
For I'm a stray too

Chorus

Don't go  
Just wait until tomorrow  
Just wait until tomorrow  
Just wait until tomorrow

On the streets of Paris  
On the streets of Rome  
They find a home  
In shadows or in coffee bars  
Down the winding alleys  
Through the brightly lit arcades  
No matter where they are

In and out of life they wander  
Little waifs and strays  
They stay until you fall in love  
That's when they slip away

In the dark you'll see  
Those sad brown eyes come shining through  
Your heart will melt

You felt the way theu looked at you

Repeat chorus

You find you need someone  
to love your days away  
Just when your heart is crying out  
Please stay  
Don't go away

Just wait until tomorrow (x4)

Yes it's true  
I'm a stray too
