Oh baby, I have never seen an angel  
Standing oh so close to me  
I never touched someone and felt such electricity  
I am taken over by the endless possibilities

And I'm waiting for the day you say that you belong to  
me  
I swear, no one will ever love you better  
I swear, we could be so good together

I never wanted anyone the way I want you  
(Baby)  
I never met someone who gives me everything you do  
I swear if I'm with you there's no other  
I swear there will never be another

'Cause of you there are more reasons to be thankful  
everyday  
'Cause of you I am reminded of the chances I should  
take  
It's the comfort of your warm embrace that shelters all  
the rain  
And there's nothing that I wouldn't give for you to feel  
the same

I swear, no one will every love you better  
I swear, we could be so good together

I never wanted anyone the way I want you  
(Baby)  
I never met someone who gives me everything you do  
I swear if I'm with you there's no other  
I swear there will never be another

Somewhere, somehow you appeared  
And everything's so different now when you're around  
The promise of all we could be  
Is what keeps me going now, I'm never down

I never wanted anyone the way I want you  
(Baby)  
I never met someone who gives me everything you do

I swear if I'm with you there's no other  
I swear there will never be another

I never wanted anyone the way I want you  
(Baby)  
I never met someone who gives me everything you do  
I swear, if I'm with you there's no other  
I swear, there will never be another

I never wanted anyone the way I want you  
I never met someone who gives me everything you do  
I swear, if I'm with you there's no other  
I swear, there will never be another

I never wanted anyone the way I want you  
I never met someone who gives me everything you do  
I swear, if I'm with you there's no other  
I swear
