Oh, lean love
All you give to me is lean love
I'm like a beggar in the sand
With the sky in his hand
And I'm blue

Oh, black day
All you give to me are your wild ways
When you're the love of my life
And then you gorge me with a knife
And I'm blue, that's untrue

Oh, lightenin'
All the heavy world is frightenin'
I'm talkin' to you
I'm like a child in the sand
On the beach of the land of you
Oh, I'm your friend, give me your hand

Oh, lean love
All you give to me is your lean love
I'm like a beggar in the sand
With the sky in my hand
And I'm blue
Yes, I really love you
