With your stained glass look  
Ahh.....

Well do you remember when we met  
You stuck behind me like a stained glass net  
And I'm broken  
Is that a token of your love  
Is that a token  
A token of your love

Do you remember when we met  
You moved behind me like a stained glass net  
And I'm broken  
Is that a token of your love  
Is that a token  
A token of your love  
Everyday, every single day  
My heart is broken,  
Oh yeah  
Everyday, every single day  
Does this mean my love has been awoken \*\*

\*Repeat \*\*Repeat \*Repeat

Is that a token  
A token of your love
