Which Galaxy are you from  
Tell me how they bang a gong  
Your world, I mean your world  
Your world, I mean your world  
Shadow in the alley at midnight  
Metal clad rocker with bent teeth  
My world, I mean my world  
My world, I mean my world  
My planets like an angel with clipped wings  
A river bed dump shed sweetheart  
Do they have sickness in society  
Do they have glitter crap gaiety  
Your world, I mean your world  
Your world, I mean your world
