It's been so long since I kissed you lips
I still think about that day.
Looking back at old photographs Baby is it wrong for
me to say
I don't feel too strong I feel weak I'm still here all alone
And when I fall asleep

[Chorus:]

I see you when I close my eyes
And baby you're right next to me holding me
I feel you then I see the sun rise
And wondering where you could be
Cause everything is gone away
And now I'm trying so hard to make it
But I still think that saying goodbye was our big...
mistake

The scent of you still on your pillow
Makes me think I'm holding you
When the morning comes I wish you were there
To wake me up the way you do
So will you pick up the phone so I can hear you speak
I'm still here all alone every night I fall asleep whoa

[Chorus]

[Bridge:]

We both played a part with all the things we done
wrong
I'm not trying to ignore but a part of me is gone
And I don't want to feel this way anymore
I see you when I close my eyes
And baby you're right next to me
I feel you then I see the sun rise
And wondering where you could be
Cause everything is gone away
And now I'm trying so hard to make it
But I still think that saying goodbye was our big...
mistake
