Your skin is like the moonlight  
Dancing in the midnight  
Your touch is sweet as candy  
Your kisses they taste so fine, so fine  
And I want to love you better, you don't have to be  
alone  
I want to let you know forever is waiting right here at  
home

And I want to be where you are  
Come on take all I've got  
I want you to know just how I feel  
I've loved you from the start  
I want to be where you are

Girl you know how to move me  
Making me believe, believe  
You'll blind a man with beauty  
Love will make him see, I can see  
And I want to love you better and nowhere is too far  
I want to let you know forever is right here in my heart

And I want to be where you are  
Come on take all I've got  
I want you to know just how I feel  
I've loved you from the start  
I want to be where you are

I've stood alone in New York City  
I've watched the sunset in L.A  
I ride for miles and miles and end up getting nowhere  
But I've never felt this way  
Never felt this way  
Never felt this way

And I want to be where you are  
Come on take all I've got  
I want you to know just how I feel  
I've loved you from the start

I've stood alone in New York City  
I've watched the sunset in L.A

I ride for miles and miles and end up getting nowhere  
But I've never, never felt this way

And I want to be where you are  
Come on take all I've got  
I want you to know just how I feel  
I've loved you from the start  
I want to be where you are
