Three steps down  
Below the city street  
In our private room  
The color all runs out

Golden brown  
The smoke curls in the air  
And I can feel a sliding peace  
Come over me tonight

The dead are dancing 'cross the room  
Where candles burn and shadows loom  
High below it all  
Our heaven's underground  
Clouds are falling at our feet  
Three steps down  
Below the street

Coming down  
It's like water after wine  
It's coming down a long hard line  
But I know better's getting harder all the time

The dead are dancing 'cross the room  
Where candles burn and shadows loom  
High below it all  
Our heaven's underground  
Clouds are falling at our feet  
Three steps down  
Below the street

Three steps down
