Keep AskinÂ'
How long will my love it last
Always
Keep AskinÂ'
How long will my days they pass
Always
Keep askinÂ' me my love
Keep asking help from above
There comes a time
and a place When
you kind of mind living
Day to day when
Country to country
And state to state where
They all got their leaders
Who all push their weight
Another mother lost
Another child today

Bet tomorrow that will
Be yesterdayÂ's
Bet you double that
Some people enraged
On the corner
With their voices
Raising judgement day
Keep AskinÂ'
How long will my love it last
Always
Keep AskinÂ'
How long will my days they pass
Always
Keep askinÂ' me my love
Keep asking help from above
Keep askinÂ' me my love
Keep asking help from above
