My life is better without you

If love is as pretty as it seems

then life is better without me

If love is deeper than the sea

then life is better without me

cause loving me would be hard for you

please shut me out,don't let me stay in you

I'm not as faithful,let me through

my life is better without you

my life is better without you

there was a time that I thought

love was the kindest thing on earth

but I was wrong,oh so definitely wrong

there fore I changed my life

within me,the pain of the past

If love is holy,so it seems

then life is better without me

if staying with me gives you pain

then life is better without me

cause fooling you isn't right to do

I can't go on,don't let me stay in you

I'm not as faithful,let me through

my life is better without you

my life is better without you
