"Girl Thang"

I was checking up this girl one day who was new up in
my hood
She was looking kinda tight to me so I stepped up said
what's good?
She was rocking Fendi with baby fat diamonds in her
ears
And I had to get that number

Now tell me shorty what's your name, what's your
number
Is there any other that you need to call and let him now
Make that to go, come on and break that heart, but not
too slow

'Cause you're gonna be my girlfriend, ask me how I
know
'Cause every time you do that girl thang, see, your
body tells me so
I know you wanna be my girlfriend for that what you
said
Don't you wanna be my girlfriend, don't you want
Don't you worry, then, be my girl
Other girls, but you want it, any girl, but I want it
Ain't nothing to it but to do it, so do you wanna be my
girlfriend

Ain't really nothing for me to have a breezy every day
But when I say the way you back it up there, you took
my breath away
Something 'bout the way you walked it out, crank it to it
when you left no doubt
Then I had to get that number

Tell me shorty what's your name, what's your number
Is there any other that you need to call and let him now
Make that to go, come on and break that heart, but
don't break it too slow

'Cause you're gonna be my girlfriend, ask me how I
know
'Cause every time you do that girl thang, see, your

body tells me so
I know you wanna be my girlfriend for that's what you
said
Don't you wanna be my girlfriend, don't you wanna
Don't you wanna be my girl
Other girls, but you want it, any girl, but I want it
Ain't nothing to it but to do it, so do you wanna be my
girlfriend

I got what you want and you got what I want
Ain't nothing to it but to do it, so go on and be my
girlfriend

You're gonna be my girlfriend, ask me how I know
'Cause every time you do that girl thang, see, your
body tells me so
I know you wanna be my girlfriend
Don't you wanna be my girlfriend, don't you wanna
Don't you wanna be my girl

Because you got it and you know I got it
I got what you want and you got what I want
Ain't nothing to it but to do it, so go on and be my
girlfriend

'Cause you're gonna be my girlfriend, ask me how I
know
'Cause every time you do that girl thang, see, your
body tells me so
I know you wanna be my girlfriend for that's what you
said
Don't you wanna be my girlfriend, don't you wanna
Don't you wanna be my girl
