Can't stop this constant nod  
Just met two peas from the next-door pod  
Seems like making a brand new friend  
But all this shaking never ends

Invitations to join in things  
I haven't done since seventeen  
Photos from places I still haven't been  
Postponing & phoning faces unseen

Slightly nervous...  
Thinking backwards...  
Up & over it!

Someone else's experience  
Someone else is over the fence  
No more blank comparison sketch  
No more false impressions left

Had to go...  
Things to do, you know how it is...  
It went from this to further over and back again  
Always make it back again  
Further over and back again  
Always make it back again  
Further over and back again  
Always make it back again

Back again  
Didn't you & me met in somewhere before -- Back  
again  
Haven't we met somewhere nextdoor -- Back again  
Haven't I seen your face before
