I woke up in somebody's dream
Somewhere that i'm sure that i've been
Yes it's true i've got everything, but i
Don't know what i'm waiting for.....
A cool wind that's inherently bliss
If it's not heaven, then it's a near miss
And i know, there's no better than this, but i
Don't know what i'm waiting for....
Dreams rule my mind
Yes, it's true, they can fool you sometimes;
I should be happy but i
Don't know what i'm waitin'.....
For
Dreams rule my mind
Yes , it's true, they'll delude you sometimes;
I should be happy, but i
Don't know what i'm waitin, waitin'
For....
And at last my soul is tellin' me yes, but i,
Don't know what i'm waitin' for.....
