Yield not to temptation
Oh my love, while I am away

Don't you know you've gotta be strong?
Leave all other girls alone
One bright sunny day
I'll be back home to stay

Yield not to temptation
And let no one lead you astray

So many times you're gonna be lonely
So many times you're gonna be blue
But yield not, yield not
Yield not, yield not

Don't you know you've gotta be strong?
Leave all other girls alone
One bright sunny day
I'll be back home to stay

Yield not to temptation

So many times you're gonna be lonely
So many times you're gonna be blue
But yield not, oh yield not
Oh yeah, yield not

Don't you know you've gotta be strong?
Leave all other girls alone
One bright sunny day
I'll be back home to stay

Yield not to temptation
Yield not to temptation
Yield not to temptation
