Sadness is just another way of life
That I've grown accustomed to by now
I close my eyes on my empty wor-or-orld
And I'm with you once more...
Sadness is just another hear-eartache
Madness is not that far behind
I close the door on my empty wor-or-orld
And I'm with you once more...
In every dream I dream, I dream of you
And every song I sing, I sing for you
To get me through another day
When you're with her, far away-ay-ay
But time is such a fleeting fragile thing
You turn around and life is gone
So I must take you i-in my arms
And leave with you-ou
While there's still time for love
(Time for love)
While there's still ti-ime for lo-o-ove
(Time for love)
While there's still time for love...
Sadness is just another way of life
That I've grown accustomed to
By now-ow-ow-ow-ow-ow
I close my eyes on my empty wor-or-orld
And I'm with you-ou-ou-ou
I dream I'm with you-ou-ou
And I'm with you once more-ore...
Oh-oh-oh, once more-ore-ore...
