If I've got something to tell yolf I've got
If I've got something to tell you
If I've got something to ask you
I pick up my guitar
And everything is so easy

I sing about rock and roll
I sing about rock and roll
I sing about rock and roll
and you'll understand

If I got something to tell you, girl
Tell you all about love and stuff
I pick up my guitar
And I don't need to say another word

I sing about rock and roll...
and you understand
I sing about rock and roll...
We sing about rock and roll...
We talk about rock and roll...
We sing about rock and roll...
