You know what, I like this you and me thing  
Feels so good to me, check it

I feel so blessed to have you  
I hold you closer to my heart  
That's you baby, yes you are

Lovin' everything about you  
And I can't find a single flaw  
'Cus you're legendary girl

If I could get a chance to touch ya  
Never felt this way for another  
You're like a treasure, I've discovered  
I gotta tell you girl, you're my world, yeah

Ooh, lovely girl  
There's nothin' they can do to take you away  
Ooh, lovely girl  
I can't believe you got me trippin' this way

I said, "Ooh, it's your world"  
So tell me all your fears and I'll wash 'em away  
Ooh, ooh, ooh  
Lovely girl

Now it feels so good to hold you  
Everything falls into place, yeah  
Starin' at you face to face darlin'  
(You know how I do it now)

No more of you feelin' lonely  
You know, I'll fill that empty space  
With whatever you want girl

It's you that wants to kiss and hug me  
Give you everything you ask of me  
Don't even want to go away you'll miss me  
I can't deny it love, you're my world

Ooh, lovely girl  
There's nothin' they can do to take you away

Ooh, lovely girl  
I can't believe you got me trippin' this way

I said, "Ooh, it's your world"  
So tell me all your fears and I'll wash 'em away  
Ooh, ooh, ooh  
Lovely girl

She's so sexy, she's so crazy  
Ooh, a lovely girl  
She's so funny and she loves me  
What a lovely girl

She wears her jeans cut fairly low  
Slightly focused but she plays the role  
She rocks an accent quite like Penelope Cruz  
With a frame like Halle, tell me how can I lose baby?

Ooh, lovely girl  
There's nothin' they can do to take you away  
Ooh, lovely girl  
I can't believe you got me trippin' this way

I said, "Ooh, it's your world"  
So tell me all your fears and I'll wash 'em away  
Ooh, ooh, ooh  
Lovely girl

Ooh, lovely girl  
There's nothin' they can do to take you away  
Ooh, lovely girl  
I can't believe you got me trippin' this way

I said, "Ooh, it's your world"  
So tell me all your fears and I'll wash 'em away  
Ooh, ooh, ooh  
Lovely girl
