This is real hard for me to tell you because you my best
friend
But you my boy so I'mma be straight up

Now you'z my boy and all but we need to talk
Let's stop at a store, bring ya ball
Let's hit the park, I'm gonna rap for a min
But don't take it too hard

'Cuz I'm hopin' afterwards ya still be my partner
It's hard for me to express how I'm feelin'
And when you hear this news
You might fly through the ceilin'

But I'm willin' to let you know the truth
And in fact it's better that I tell you before you hear this
story backwards
It's about this new girl I'm creepin'
It's my little secret and I can hardly keep it yo, boy it's
ya sista

Ya homie, I've been wit her for a while now
And there's nothing you can do 'bout it
It's stressin' me out, it's stressin' me out

The first time I ever seen her
Y'all moved around my way I was dyin' to meet her
But I met you first and we became real cool
Started hangin' out in school

Now why you reachin' for your tool
And no need for no beef so stop actin' irrational
I'm still that same brotha who had ya back for you
You know I never hurt you or tried to be foul

Besides you don't want your niece to growin' up
Without a daddy around, that's right
Your baby sista is quite pregnant and we've already
checked
And are meeting with a Reverend

It's ya sista, yeah, homie I've been wit her

(Wit her)
I've been wit her for a while now
And there's nothin' you can do 'bout it
It's ya sista, I've been wit her for a while
('Cuz I love her)
Ya sista I've been wit her for a while now
(This is stressin' me out, this is stressin' me out)

Ya sista, ya still my best friend

Ya sista, you know I love her
I would never hurt her never leave her
Ya sista, you know I love her
I would never hurt her, never leave her

Ya sista, you know I love her
I would never hurt her, never leave her
Ya sista, you know I love her
I would never hurt her, never leave her

Ya sista, you know I love her
I would never hurt her, never leave her
Ya sista, you know I love her
I would never hurt her, never leave her
