On a cold misty october morning
In the year of the lord 1462
The horses appeared on the hills of Brasov
The process of damnation would soon begin

Dracul would show the world how to correct
The rumanians which lacked strenght or showed
disrespect
The following story is just one of many on Draculs way
To outwipe every opposer who didn't him blindly obey

He killed by crushing them under the wheels of
barrows
Others were undressed and skinned alive
To their very bowels and other were still impaled upon
wooden poles
Or fried over the glowing embers placed under them

The cold wind of death follow in his wy
Deme quaden thyrane

Some of them were run through with stakes
that impaled their heads, breasts and behind
Until the pole was driven through the mouth

To ellude the lack of any cruelty he drew stakes
through
The breast of mothers and then he went on by impaling
Their infants upon theese

The cold wind of death follows in his way
Deme quaden thyrane

So many have to die
By the horrible ways of torturing them
With such intruments that can only be invented
By the most nefarious cruelty possessed
Uttermost dreadful tyrant that ever existed

But the hungarian King Mathias Corvinus now Dracul
betrayed
And for twelve long years Vlad now in the kings prison

stayed
But the bonds of blood that Dracul in prison tied
Made him king in Wallachia again with Mathias as an
allied
With lord Stefan Bathori's army and military skill
Dracul now will make all saches, boyars, Danesti's and
turks blood chill
