I hear the evil calling of the spirits of the dark  
And see the beauty and the power of the devils mark  
The night always calls my name  
Gaze into my eyes and see the shadows of the flames  
Of hells fire  
Torture and pain I desire  
Let the flames reach higher  
And lick the realms of the Nazarene liar  
Dark reflections sweep the night a call from the depths  
of the earth  
Antichrist is rising the image of Him to which hell gave  
birth  
Necromantical chants are brought forth by the winds of  
the north  
The message of destruction from Satan and his court  
The toll of damnations bell  
Open the gates to hell  
I can feel the delightful smell  
Of rotten souls who in darkness dwell  
Thou - The archangel who fell from the heavenly  
empire  
Thou - The hand that wound with evil and unholy desire  
Thou - The black lord of the unlight to which we all  
belong  
>From the deepest part of gehenna tormented souls  
sings damnations song  
^?  
Write my name with the slaughtered angels blood  
As I step in the face of the fallen soldiers of god  
All the children of Jehova will always be our prey  
Beyond the pearly gates we shall crush, rape destroy  
and slay  
Grant us the first power  
Up from hell we storm at the witching hour  
Where we ride the soil turns sour  
The evil eye behold from hells highest tower  
The power of christ doesn't compell me  
Lucifer I kneel before thee  
Join the forces of Satan for you will see  
Grim and dark the future is going to be  
Of hells fire
