Closer, come closer till everything burns  
Each fetus a torch  
The missionaries' lips in raging flames  
Death and our semen, at last shall we burn  
Ash and coal  
Come closer, come closer  
Ash and coal  
The guilty and the innocent the same  
Light razorblades restless dance  
Our navel-strings and forgotten sins  
Ash and coal  
Holy or crown of lust the city must burn  
The bread and the flesh must follow it's vow  
The abdomen, tongues and aborted the same  
Every image of both living and dead  
Shall perish in flames  
Perish in flames  
Perish in flames  
Perish!  
Come, come closer till nothing breathe  
Come closer,  
And come without warning  
The prophet's ash and coal  
Blind, but with a thousand seeking arms  
Ash and coal  
Can you outrun the mouths of hell?  
Holy or crown of lust  
The city must burn  
The bread and the flesh must follow it's vow  
The abdomen, tongues and aborted the same  
Every image of both living and dead  
Holy or throne of filth

All nations must burn  
The king and the whore together at last  
The abdomen, tongues and seeker the same  
Every fragment of both tomb and tree  
Shall perish in flames  
Perish in flames  
Perish in flames  
Perish in flames
