"Everyday"

Visit "[Everyday](#)" on MotoLyrics.com

I know that you
I know that you've gone away
Well don't you leave me now.

How can you say
How can you even take away
Well baby don't you know
You took my breath away.

Oh can't you see
Don't you know you're a part of me
So don't start cryin' now
'Cause baby

Chorus

Every day seems so long
Every day since you've been gone
On my own for a while at least
Well baby
You took my breath away.

How can I forget your sweetness
Your sweet embrace
How did I ever let you go
Now that you're gone
It's hard to think
It's hard to breathe sometimes
But that's the way it is

Chorus

No matter how far it may seem
I'll always be there for you
Everyday

Chorus (X2)
