It happens everyday now
Walking out the door
It happens everyday now
Do I know what I do this for

It happens everyday
I walk out of my place
Tempted by the storm
That's always in front of my face
Do I know what I do this for

I've lived in this for so long
How do I feel a change
The storm it beats against me
Every single day

But Jesus stands beside me
He's holding my hand
The storm it beats against me
But I know where I stand

It happens everyday
I walk out of my place
I'm tempted by the storm
That's always in front of my face
Do I know yes I know
I know exactly what I do this for

But Jesus stands beside me
He's holding my hand
The storm is pressed against me
But I know where I stand

It happens everyday
I walk out of my place
Tempted by the storm
That's always in front of my face
Do I know what I do this for
