There was a time when all the doors were shut tight -
And He couldn't break through - Living my life from the
inside - Never knew about You - But when we met, I'll
never forget - What my heart went through - (Now)
Broken chains are all that remain - In an empty room,
it's true (that)

Chorus:

Love was waiting was there all the time - Anticipating
this heart of mine - Love was waiting would never give
up the fight

All of the years that I lived alone selfish - And cold, so
cold - I never knew that a love through Him could make
me whole - So whole - I can see as He lives in me - That
He's faithful, and His love will provide - Cause
everytime I felt a need - Down deep inside my life (that)

(Chorus)

Love was waiting to stand by my side - There is no
maybe what I feel inside - Love was waiting would
never give up the fight
