"Our Things"

Visit "[Our Things](#)" on MotoLyrics.com

Don't do our things with somebody new
Don't do our things the things we used to do

Don't go walking down the street we used to walk along
Those old mem'ries there just let them be
Don't go dancing to the music of our favorite song
These are right things meant just for you and me
Don't do our things...

Don't give her that special look you always saved for
me
There's a thrill there the time can't never take
All the little things we did still mean so much to me
So please save our things just for old time sake
Don't do our things...
