

Margin Of Error "Bliss"

A fear set in stone.
Uncloaking the unknown.
Erase this farce out of the dark.
If only you would have known.
This bliss.
Ignorance.
Enlighten me a final plea.
Quest for meaning in lives not worth living.
Understanding flees, degrading.
Is this all that we'll ever be?
Bliss.
This mind sets the body above the rest.
Bliss.
Evolution begins again.
Ignorance.
Chaos breed, descentseed.
Majority minority, on flesh they feed.
Superiority, absent need.
Animal instinct, plague.
No bliss in igronance.
