Carnival, we'll have a great time
We'll fly the ferris wheel
To the moon at the carnival

Carnival, I'll be your scarecrow
We'll drive your father's car
Down the road at the carnival

Carnival, carnival, ooh, carnival

Carnival, you're on my last nerve
I'll be a humming bird
You shall see at the carnival

Cigarette, we'll have a quick drag
I'll boot your bony ass
To the moon at the carnival

(I need some old times)
Carnival
(A place to lay low)
Carnival
(And to waste my time on a mime)
Carnival

Let's bust out our new piano
Play a tune in the corner of your spine
Chase the moths, moth-moths away
Chase the blues, blue-blues away
And take me to the carnival

Super friend, I'd like to hear you
It'd make me happier
Than a child at the carnival

Carnival, carnival, ooh, carnival
