Bill is skeptical about the aliens  
So come on dreamboats, let's get our story straight  
I know you're never in the mood  
I know it sounds strange, but who knows

Someday you'll love someone  
As much as you love science  
I know it's hard to believe  
But Bill I believe

Bill is petrified by a suntan kiss  
So come on mama, let's get our act cleaned up  
And I don't need your attitude  
I know it sounds rude, but here goes

Someday you will love someone  
Someday you will love someone  
Someday you will love someone  
Bill I believe, Bill I believe

Bill is skeptical about the aliens

Bill I believe  
Bill I believe  
Bill I believe  
Bill I believe

Bill I believe  
Bill I believe  
Bill I believe  
I am skeptical about the after earth
