While i'm still awake. lets have some fun. If i'm
discovered at your place all bets are off.

I know nothings gonna work right. strung up?(this is
where i'm having trouble) dancing on a freak flight.
hold on baby get your head back now.

once i met a friend while the moon still red. lets get
carried away. lets lose out heads.

Are you all on my side when i lose my mind? when i get
carried away? when take my time?

I know nothings gonna work right. stung up? dancing
on a freak flight. hold on baby get your head back now.

cause i need you now. x3

while i'm still awake. lets have fun. If i'm arrested in this
state all bets are off.

i know nothings gonna work right. strung out? dancing
in a freak flight. baby get your head back now

because i need you now. x6
