Somebody
Is being bitchy
In New York City
Oh Carly hit you

Let's paint our teeth green
Let's shoot ourself thin
Let's spiral out of it all
Let's start a fryin'

I'll find something lighter
At night when we think it's thicker
To the moon and feel your midnight shiver
Let's settle for love

Let's move to your top

Let's make some sick love
Let's shoot our right foot
Let's smoke a bible

I don't want to be divorced of death
I need to build myself a shelter or else
'Cause none of you can feel them move
I'm never coming home to you

Let's paint our teeth green
Let's shoot ourself thin
Let's spiral out of it all
Let's start a fryin'
