Mad Summer

Out in the streets everyone's on the beach and
it's summertime
I walk alone in the shadows so no one can see
I picked up the phone I've tried to call you
Nobody's home but still I'm calling
You shoot you to miss, you stink with your kiss
And I've never felt like this

It's a mad mad summer, falling for you
It's such a mad mad summer, so what can I do
Feel my heart keep running like never before
It's a mad mad summer, mad summer for sure

The city is packed and the air is so heavy and filed with
dust
The summer is warm and my heart is about to go wild
You drive me insane, what you're doing'
You ain't got no shame to make me do this
You shoot from the help, one kiss from the lips
I feel I'm losing my grain

It's a mad mad summer, falling for you
It's such a mad mad summer, so what can I do
Feel my heart keep running like never before
It's a mad mad summer, mad summer for sure

Mad summer for sure

I picked up the phone and tried to call you
Nobody's home but still I'm calling
You shoot you to miss, you stink with your kiss
And I've never felt like this

It's a mad mad summer, falling for you
It's such a mad mad summer, so what can I do
Feel my heart keep running like never before
It's a mad mad summer, mad summer for sure X2
