When I laid my eyes on you
You just seemed to good to be true
When you turned and looked my way
I knew I'd make you mine some day
Lying in my bed alone
I can't help but dreaming 'bout you
I only wish I knew

You're right here - deep in my heart
Linger there $\tilde{A}f\hat{A}\check{\alpha}, \neg$ whenever we apart

'Cause I need you here by my side
More than the air that I breathe
And I miss you, miss you tonight
Baby you $\tilde{A}f\hat{A}\check{\alpha}, \neg$ you mean the world to me

When you lay your hands on me
Baby I am shivering
I can see it in your eyes
You would never tell me lies
So don't let it slip away
Tell me what to do to make you stay

You're right here - deep in my heart
Hear my prayer don't tear us apart

'Cause I need you here by my side
More than the air that I breathe
And I miss you, miss you tonight
Baby you $\tilde{A}f\hat{A}\check{\alpha}, \neg$ you mean the world to me

Please tell me you'll stay
Tell me you're kine forever
Baby please stay $\tilde{A}f\hat{A}\check{\alpha}, \neg\tilde{A}, \hat{A}!$
You'll stay $\tilde{A}f\hat{A}\check{\alpha}, \neg\tilde{A}, \hat{A}!$

'Cause I need you here by my side
More than the air that I breathe
And I miss you, miss you tonight
Baby you $\tilde{A}f\hat{A}\check{\alpha}, \neg$ you mean the world to me
