Why do you walk in the dark
Hoping that love finds a spark

Did you ever lose
Something you refused
Something that you wish came true?

You were never looking
I stood like a rose
How could you have found me
So close

And now you stare at the Sun
Blinded so why should I run

Did you ever lose
Something you refused
Something that you wish came true?

Remember you would root for me
Remember I would root for you
It's too late to return, I know.

Did you ever lose
Something you refused
Something that you wish came true?

You were never looking
I stood like a rose
