We could keep the rain from comin' down  
We could stop the world from turnin' 'round  
Make a wish upon a falling star  
In the light of day  
Everything can happen now  
Through your eyes I can see  
Anything is possible for you and me  
We're unstoppable if we just believe  
No matter what they say or what they're tellin' you  
We could change the world if we wanted to  
There's nothin' that we can't do  
Anything is possible  
We can make an ocean from desert sand  
Watch the sun come up when we command  
Every bird will sing our melody  
Every night and day  
Everything will happen now  
In your eyes I can see  
Anything is possible for you and me  
We're unstoppable if we just believe  
No matter what they say or what they're tellin' you  
We could change the world if we wanted to  
There's nothin' that we can't do  
We'll hold out our hands and wait  
And then diamonds will fall from the sky  
We'll open up heaven's gate  
And with every angel we'll fly  
Anything is possible for you and me  
We're unstoppable if we just believe  
No matter what they say or what they're tellin' you  
We could change the world if we wanted to  
There's nothin' that we can't do  
Anything is possible
