I wait for you with no intention to
Stir you mind any kind of doubt
My heart won't still despite my will
I feel for you
And you feel it too
My midnight blue
A sence of pride walkin' by your side
Makes me sigh and wonder why
I let my heart go wild there for a while
I feel for you
And you feel it too
My midnight blue
I wait for you like I always do
The world goes 'round and I have found
That you are ment to be my only
'Cause I feel for you
And you feel it too
My midnight blue
