I know what I' talkin' about  
I know what I' talkin' about  
I've been there done that whenever in doubt  
Listen to the voice inside  
Live the dream enjoy the ride  
I never would have let you go  
I didn't know back there but now I know  
Life's to short yor're growing up fast  
But I live it now 'cause nothing's gonna last  
Gone are the times when i had a choice  
Gone are the times I could let it go  
If I could live my life again  
I know what I would do when you said  
Hold on - never let go - I never did and now I know  
I should've - I should've - I should've when I had a  
chance  
Jump in - never look back - off into the sunset fade to  
black  
I should've - I should've - I should've when I had the  
chance  
I'm not saying you should do it all  
I'm not saying jump every wall  
You'll learn from your mistakes  
The choices you make - the roads you take  
But this much I know it's true  
What I regret the most is what I didn't do  
And this here is what I've learned  
You got to - you got to leave no stone unturned  
Gone are the times when i had a choice  
Gone are the times I could let it go  
If I could do it all again  
I know what I would do when you said  
Hold on - never let go - I never did and now I know  
I should've - I should've - I should've when I had a  
chance  
Jump in - never look back - off into the sunset fade to  
black  
I should've - I should've - I should've when I had the  
chance  
Never ever should've let you go back then  
Never ever will I get the chance again  
Never ever will I make the mistake again  
Thinkin' 'bout it won't get you nowhere

Dwelling in the past too much is just not fear  
But I can't help it  
On repeat inside my head your voice goes  
Hold on - never let go - I never did and now I know  
I should've - I should've - I should've when I had a  
chance  
Jump in - never look back - off into the sunset fade to  
black  
I should've - I should've - I should've when I had the  
chance
