I've got a thing for you baby always have  
Never knew how far my heart would take me  
She's my friend but she treats you bad  
Can't let that happen to such a decent man  
If you let me in, let me stay a while  
I'll do more than make you smile  
Come to me child

I'm gonna soothe you  
Hey baby  
I know just what to do  
My baby

Don't worry, I won't do you any harm  
My touch is gentle, my body is warm  
Lift your head, feel my cool hand on your face  
Let me kiss your tears away  
If you let me in, honey let me stay  
Lay your head on my breast  
I'll do the rest

I'm gonna soothe you  
Hey baby  
I know just what to do  
My baby

Can you feel it  
Comin' down like a trance  
Forget your head remember how to dance  
Can you feel it  
Comin down like healin?  
So deep, it just couldn't be a sin, now Baby

Walk on in, baby come on in  
Make yourself at home in my arms

I'm gonna soothe you  
Hey baby  
I know just what to do  
My baby
