Some folks think it's cool to have some kind of lover
He don't believe it's true, 'cause he just found another
And when you see him, you might see him on the street
He walks in a rhythm 'cause he's got some kind of beat

He clicks his heels a bit
His suit's a perfect fit
He knocks 'em out and though he seems alone
Somebody wants him on the phone
He knows what he's doin',
He's walking one and only
and you know that he's on fire
Don't try to warn me girls
'Cause he's my heart's desire
You take your heroes and you put them up beside him
It's no contest as the one and only ride in, ride in.

Walkin' one and only and they're calling him by name
He won't be leaving town 'til he can cut some fame

He's walking way too fast, he wants that thing to last
He knows what he' doing and though he seems alone
Somebody wants him on the phone
They wanna shout
He's walking one and only and you know that he's on
fire
Don't try try to warn me girls, 'cause he's my heart's
desire
