"Kissing Me"

You beside me
I have tried to hide all I can hide
Afraid you'll see me
and be scared by all the thoughts I've tied

Reconciliation
My pride dying every day
Days of wondering
Confusion playing all its games

You - holding me
I am holding my breath in dismay
You - kissing me
Kissing me

Slowly melting water -
Clean the dirt and clean some space
Right beside me -
I can smell vibrations from your face

You - holding me
I am holding my breath frightfully
You - kissing me
Kissing me

You - holding me
I am holding my breath frightfully
You - kissing me
Kissing me
