I will love you Mr. Iceman
Even though I know you do not want my love at all
I will love you Mr. Iceman
Even though you say you do not need someone who
cares

You know I've seen your bitter smile
You know I've seen your shaking heart behind that suit
You know I know about your mother

I will love you Mr. Iceman
Even though I know you do not want my love at all

You know I've seen your tears at night
You know I've seen your shaking heart behind that suit
You know I know of all your troubles
