A tiny ray of light is sneaking up from under water
Maybe a lonely fisherman can notice it sometimes
My guess is that the light is gonna be before somebody
sees it
The reason of this mystic thing is mad up in my mind

Down in the dark i hear a song from the wagon 57
Hear dancing steps and polka tunes
Men and women laugh
Reflections in the water give impressions of some
faces
A castle built of gold and diamonds deep deep in the
sand

Train under water can someone see the light

The reason of this celebration beats my understanding
But i will not prefer another sight than just what's there
The fisherman is fishing and the music has no ending
Meanwhile there are seagulls swimming through the
atmosphere

Train under water can someone see the light
