A dream where you can become
Save the best in the sun
The kettle cries when its done
Becoming and just keep going

The fight is losing its fun
And i never knew if i won
We can live and die and become
We're learning and we just keep going

A friend that you can lean on
A daughter constant and strong
Admit the things i've done wrongs
Say sorry and just keep going

I hid inside it gets worse
The talks are over rehearsed
But everything feels reversed
Switch it and just keep going

Green butterflies in your sight
In your sight they're easy
Paves the morning light
You'll be free you'll find
And you get by

A dream that you can't exist
A stranger blowing a kiss
It isn't you that I miss
We'll leave it and just keep going

The fight is losing its fun
And I never knew if I won
We can live and die and become
We're learning and we just keep going

Green butterflies in your sight
In your sight they're easy
Paves the morning light
You'll be free you'll find
And you get by

And you get by

Green butterflies in your sight

In your sight they're easy

Paves the morning light

You'll be free you'll find

And you get by

And you get by

And you get by

And you get by

And you get by
