I'm keeping up, keeping up with the time lapse lifeline
And they can run they can run from the font to the Last
Rites
And we can hear we can hear the first beat to the flat
line
I'm keeping up, keeping up with the time lapse lifeline
And once it's done

Oh we dreamed a life
It was just like that, was like that
And just like that, and just like that it's done

Back it up, back it up
Stop, fast-forward, rewind
And watch the sun, watch the moon taking turns in the
same sky
And you were dead as the leaves, now you're new like
the spring-time
Back it up, back it up
Stop, fast-forward, rewind
And once it's done

Oh we dreamed a life
It was just like that, was like that
And just like that, and just like that it's done
Oh we dreamed a life
It was just like that, was like that
And just like that, and just like that it's done

Still we stand with the help of a steady hand
Capture images of boy and man
Till it's done
And 7 years combined is just the flicker of a neon sign
Little negative of hopes refined
Till they're done, oh they're done

Oh we dreamed a life
It was just like, was like that
And just like that, and just like that it's done
Oh we dreamed a life
It was just like, was like that
And just like that, and just like that it's done
