Once I said take care of children I stay because you
want me
(you want me)
Now this came to a head
Once I said you had my soul
Now it seem like somebody eise hold
I believe you was a good man
Once I said I can't believe without you
You always part of me
Write my soul down for you doin everything that I can
for you
But I realize when you said you were leaving me
Who else can treat you
better me
Now look at watcha have done
All that is gone

Always hold on tighter
who forgotten love
I forgotten love
I believe we said these thing we love once never again
We split apart I never won't it to end
How much I love you
You said it too baby
Always be there.anytime
You need me
All that is gone
